

Hardypick, Sheffield

The Hardypick is a traditional community public house/ restaurant that's part of the Hungry Horse Brand owned by the Greene King Group. They required a 4 Zone Paging System but with Zone 1 to have flexibility to be a Foreground PA Space during specialist live sporting events. They also wanted a Global IPAD controller for the various General Managers. The 46-120 also allowed the installer the flexibility to increase the power output for Zone 1 by using the AUX Output option plus the LM-2 Input plate for DJ's, Live Bands, Quiz Nights & Karaoke.
