

# High School Gymnasium DCM1e, CA4250

Multi-Zone audio system for Music, Teaching and Event. The addition of the ME-1A, LE-1A and BE-1A provides flexibility for expansion as required. Each of the three zones can be optimised with level and source selection per zone. The Ring and Courts are a separate fourth zone. For safety an external fire alarm and paging relay can be connected to mute all audio in the event of an announcement or emergency. An output to the Assistive listening system is provided for those with impaired hearing.
